PROFILE

OF MR. KHOI

PERSONAL DETAILS (THÔNG TIN CÁ NHÂN)

Name	DAM HUY KHOI
Date of birth	1987/01/07
Gender	Male
Marital status	Married
Address	Vinhomes Smart City, Tay Mo, Nam Tu Liem, Ha Noi
Telephone	0333.377.911
Email	damhuykhoiutehy@gmail.com

CAREER GOALS (MỤC TIÊU NGHỀ NGHIỆP)

With over 10 years of experience in programming, I seek opportunities to contribute to a dynamic and creative team working environment. Committed to creating solid and effective technical solutions, I look forward to sharing my deep understanding with my teammates and building high-quality applications. The combination of extensive experience and passion for technology is the main driving force behind my career goals .

EDUCATION HISTORY (QUÁ TRÌNH HỌC TẬP)

EDUCATION (BACHELOR/ DIPLOMA/HDSE)

Period	University name & Faculty name (Tiếng Việt)	Degree	Mark Average
From : 2005 To : 06/2010	ĐẠI HỌC SƯ PHẠM KỸ THUẬT HƯNG YÊN	IT Engineer	7.53

CERTIFICATE

- JLPT Japanese N3 Certificate
- ISO27001-2013 certificate
- Agilearn Scrum Essence 2.0-2022 Certification
- Studying for CC Google Project Management

Term	DEVELOPER.NET, LEADER	Huong Viet Software Co., Ltd, Ha Noi
04/2022 ~ present (2 years)	• Lead and manage a dev team of 5 members involved in building and developing Web applications using ASP.NET, .NET Core • Establish efficient workflows and optimize product development processes. • Conduct periodic performance reviews and team training to enhance skills. • Take on the role of Scrum Master of a software project from inception to completion. • Participate in software development stages from planning, estimating, design, construction and product deployment	

Term	DEVELOPER.NET	Huong Viet Software Co., Ltd, Ha Noi
05/2020 ~ 04/2022 (2 years)	• Participate in analyzing customer requirements and proposing solutions: PM system IntestPro test bank, exam website, online supervision and assignment of exercises CLS-K12... • Carry out software development, testing and deployment phases for customers. • Support project management in dividing tasks, scheduling, progress and quality of implementation of tasks in the project. • Coordinate with team members to ensure cooperation and completion of work according to required schedule and quality. • Summarize reports on the dev team's work results weekly, monthly, and quarterly with PM.	

Term	DEVELOPER.NET	Panasonic R&D Center Vietnam, Hanoi
02/2018 ~ 05/2019 (2.5 years)	**1)** Participate in building and developing the VI MonitorPlus surveillance camera software system. • Research and develop integrated Plugins: Bus route monitoring, facial recognition, door card... • Converting modules from VB.NET to WPF improves product quality. **2)** Participate in building and developing web applications for Japanese customers using PHP (CodeIgnite, Laravel Framework): Sports, sales, insurance, job placement websites.	

Term	DEVELOPER.NET	FREELANCE, Hanoi
10/2017 ~ 11/2018 (1 year)	• Directly engage in discussions with customers to clarify project requirements, timelines, and budgets. • Join an outsourcing team, implement some projects using C#, VB.NET : Coffee shop, karaoke, revenue and expenditure management system . ..

Term	**AUTOCAD Engineer**	School@Net Software Co., Ltd in Ha Noi
11/2010 ~ 12/2013 (3 years)	• Participate in building and developing the online test bank software system - iQBLeo8.0, Timetable support software - TKB8.0.	

SKILL
(KỸ NĂNG)

Professional skills	• Skills in .NET programming, including C#, ASP.NET, .NET Core and Entity Framework. • Take on the role of Team Leader with the ability to manage projects, schedule work, assign work, and ensure progress. • Mastery in database management, especially using SQL Server and MySQL. Skills in optimizing application and database performance to ensure smooth and efficient operations . • System design analysis and database design skills • Communicate coherently, effectively in collaboration with stakeholders and ensure strong understanding within the team. • Strong courage under great work pressure.
Programming language	• **Back-end:** .NET Core , ASP.NET MVC, OOP, Web API, LINQ, PHP(Laravel, CodeIgniter), WordPress. • **Front-end:** Angular 2+, HTML/CSS, Bootstrap, TypeScript, DevExpress, Telerik UI
Database	• Good use of SQL Server, MySQL, SQLite. Have worked with PostgreSQL**.**
Server/Hosting	• Experience in setting up webserver configuration and related services on Windows Server/VPS Linux (CentOS, Ubuntu...)
Other skill	• Good use of project management tools: MS Project, Gantt Pro, Excel, JIRA, Trello, Mantis, Redmine, Git, SVN... • Proficient in using Agile model and Waterfall model • Using Photoshop well, Figma can design and edit photos at a decent level. • Good ability to read and understand English documents.

ATTENDED PROJECT DETAILS
(EXPERIENCE *IN WORK, TRAINEE, PROJECT IN UNIVERSITY)*
(KINH NGHIỆM LÀM VIỆC, THỰC TẬP VÀ ĐỒ ÁN TRONG TRƯỜNG)

Duration	Project name	CLS E-LEARNING SYSTEM – ONLINE HUMAN RESOURCES RAINING
From: 04/2022 **To: Present**	**Position(s)**	Developer, Team leader
	Company	Huong Viet Software Co., Ltd
	Members	10
	Describe project	The system deploys an online training platform for personnel in the organization, providing training materials, tasks, tests and managing learning progress.
	Role in project	• As the Team Leader of the project, directly discuss, receive and clarify the requirements and desires of Stakeholders about the product. • As a Scrum master, take advantage of professional knowledge and combine it with leadership and communication skills to ensure an effective Agile development process. • Divide tasks and work with the development team to build and upgrade product features that meet Stackeholder requirements. • Deploy and hand over products in each phase to customers. • Summarize reports on the dev team's work results weekly, monthly, and quarterly with PM.
	Technologies	• BE: ASP.NET Core 3.1, Entity Framework Core 3.1, WEB API • FE: Angular 7, TypeScript, HTML/CSS, Bootstrap • Database: SQL Server 2019 • Other: Micro - service, Docker, Message MQ, API Gateways, Jenkins

Duration	Project name	BUILDING A SMART TEST BANKING SYSTEM – INTEST.PRO
From: 05/2020 **To: 04/2022**	**Position(s)**	Developer, Leader
	Company	Huong Viet Software Co., Ltd
	Members	5
	Describe project	The system provides effective support tools in the process of testing, evaluating and innovating exams with a quality question bank system.
	Role in the project	• Participate in analyzing customer requirements and proposing solutions: PM system IntestPro test bank, exam website, online supervision and assignment of exercises CLS-K12... • Carry out software development, testing and deployment phases for customers. • Support project management in dividing tasks, scheduling, progress and quality of implementation of tasks in the project. • Coordinate with team members to ensure cooperation and completion of work according to required schedule and quality. • Summarize reports on the dev team's work results weekly, monthly, and quarterly with PM.

	Technologies	• WPF (C#), XAML, MVVM Model, Entity-Framework, DI(Dependency Injection), Visual Studio
		• FE: Telerik UI, DevExpress
		• Library: Prism Library 5.0, SignalR (Client-Server)
		• Database: MySQL, SQLite
		• Other: OCR- Image and text recognition

Duration	Project name	DEVELOPMENT OF SURVEILLANCE CAMERA SOFTWARE SYSTEM – VI MONITOR PLUS
From: 05/2019 **To: 04/2020**	**Position(s)**	**Fullstack Developer**
	Company	**Panasonic R&D Center Vietnam**
	Members	**>10**
	Describe project	Management, monitoring, and control system for camera equipment and security systems for buildings, factories, and public transportation.
	Role in the project	• Understand project requirements, participate in the design process of system features and modules. • Design and program user interfaces for reception modules. • Process data and integrate into the database, work with the database to store and retrieve information from surveillance cameras. • Develop surveillance camera functions: build functions such as live view, video recording, remote control, image analysis from cameras... • Ensure system security through the use of encryption and access control. • Perform unit testing and integration testing to ensure the software is stable and reliable. • Optimize source code and improve system performance.
	Technologies	• WPF (C#), XAML, MVVM Model, Entity-Framework, DI(Dependency Injection), SignalR- Real-time connection, FFmpeg- Video data processing and conversion ; FE: DevExpress • Database: SQL Server 2017

MORE ABOUT YOURSELF

As a creative programmer, I am committed to bringing value through a combination of technical expertise and communication and team management abilities. Desire to contribute to a dynamic working environment, promoting creativity and personal and team development.
